ABSTRACT

Competitions are essential for fostering growth, creativity, and skills among students. However, the traditional methods of managing competitions at various levels, such as department and college, often face challenges related to accessibility, efficiency, and transparency. The Competition Tracker is a mobile application designed to address these challenges by providing a user-friendly digital platform. This application features a User Panel for students to browse and register for competitions and an Admin Panel for organizing, posting, and managing events.

By simplifying the entire process, this application eliminates the need for manual intervention, enhances accessibility, and ensures streamlined coordination at departmental and college levels. The system encourages greater student participation while significantly reducing the administrative burden.

This innovative solution integrates modern technology to create a centralized platform for tracking competitions, empowering both students and administrators. The Competition Tracker serves as an efficient and secure tool to modernize event management in educational institutions.

ACKNOWLEDGEMENT

We express our sincere thanks to our correspondent **Thiru.A.K.ILANGO BCom., MBA., LLB.,** and other philanthropic trust members of Kongu Vellalar Institude of Technology Trust for having provided with necessary resources to complete this project. We are always grateful to our beloved visionary Principal **Dr.V.BALUSAMY BE(Hons)., MTech., PhD.,** Kongu Engineering College, Perundurai for providing us with the facilities offered.

We convey our gratitude and heartfelt thanks to our Head of the Department **Dr.A.TAMILARASI MSc.,M.Phil.,PhD.,MTech.,** Department of Computer Applications, Kongu Engineering College, for her perfect guidance and support that made this work to be completed successfully.

We also wish to express my gratitude and sincere thanks to our project coordinator **Dr. T.KAVITHA MCA., M.Phil., Ph.D.,** Assitant Professor, Department of Computer Applications, Kongu engineering College, who have motivated us in all aspects for completing the project in the scheduled time.

We would like to express our gratitude and sincere thanks to our project guide **Dr.A.TAMILARASI MSc.,M.Phil.,PhD.,MTech.,** Head of the Department, Department of Computer Applications, Kongu Engineering College for giving her valuable guidance and suggestions which helped us in the successful completion of the project.

We owe a great deal of gratitude to our parents for helping us to overwhelm in all proceedings. We bow our heart and head with heartfelt thanks to all those who thought us their warm services to succeed and achieve our work.
